

Laminating Film - Inkjet Photo Paper

Laminating Film

Laminating Film is a kind of specially treated and evenly coated film, which is used to form high-grade sheet packing materials. Our film is widely used for various kinds of covers, such as ID card, VIP card, photos, pictures, Credit card and etc. Our Laminating Film has the excellent performance of waterproof, anti-altering, moisture proof and preventing acid corrosion, alkalized agent etc.

100mic	50mic + 50mic
	75mic + 25mic
125mic	75mic + 50mic
	100mic + 25mic
150mic	75mic + 75mic
	100mic + 50mic
175mic	100mic + 75mic
	125mic + 50mic
200mic	100mic + 100mic
	125mic + 75mic
	150mic + 50mic
225mic	125mic + 100mic

	150mic + 75mic
	175mic + 50mic
250mic	125mic + 125mic
	150mic + 100mic
	175mic + 75mic
Specification (cm)	Film size(mm)
10cm	95 * 66
	59 * 97
	60 * 95
13.3cm	75 * 105
	80 * 110
A6	115 * 160
A5	160 * 220
16.6cm	95 * 135
23.3cm	136 * 188
33.3cm	214 * 264
40cm	264 * 316
46.6cm	292 * 378
60cm	360 * 480
A4	220 * 308
	216 * 303
A3	308 * 426
	303 * 426
A2	426 * 606
B4	270 * 380
B5	195 * 275
